PREAMBLE

Ever since the Sacred Body of Jesus Christ was reverently laid in the tomb, to await the hour of its glorious Resurrection, the Church has been vigilant to surround the burial of those who hope to rise with Christ with an atmosphere of deep Christian faith and profound reverence.

In the Funeral Mass and burial prayers, the Church gives voice to the belief in the Christian doctrines of the Resurrection of the Body, the Communion of Saints, and Life Everlasting; but as a further seal and symbol of that faith, the Church sets apart and solemnly blesses the places in which the bodies of the faithful departed await the resurrection of the dead.

It is with these beliefs and the precepts of the founders that the purpose of Associated Catholic Cemeteries shall be:

- To serve the members of the Catholic community in the Archdiocese of Seattle;
- To carry out the religious function of the burial and care for the resting places of the deceased;
- To accept the responsibility of implementing this religious function under the direction and supervision of the Archbishop of the Seattle Archdiocese;
- To fulfill the teachings and rich traditions of the Catholic Church with regard to the deceased and the sacredness of the cemeteries in which their bodies rest;
- To recognize the deep religious significance of the Corporal work of Mercy involved in the burial of the dead;
- To respect and care for the people of God who even in death remain a part of the Communion of Saints;
- To encourage prayer and devotion for our deceased brothers and sisters;
- To oppose any effort to minimize or destroy any of the Catholic teachings which relate to death, burial and remembrance of the departed souls;
- To proclaim through our words, work and examples the sacredness of the Human Body and the belief in the Resurrection and the Christian Virtue of Hope.
- To serve the members of other Christian Communities and their families who see the value of the faith witness proclaimed by our Catholic Cemeteries;

In the very earliest days, the Church found it necessary to make rules and regulations which would protect these sacred places and the relics laid therein. The Church could not and would not allow anything within the holy precincts which would desecrate them, lessen their beauty, or bring dishonor on the dead.

To ensure the sacred character of the cemeteries operated by Associated Catholic Cemeteries in accord with the mind and traditional practice of the Church and to establish and maintain good order, the following Rules and Regulations are in effect.

THE RULES AND REGULATIONS

Any question of the burial of a non-Catholic or of any person not entitled to Christian burial according to the rules and disciplines of the Roman Catholic Church, shall be decided exclusively by the Management appointed by the Corporation, and such decision shall be final and binding on the parties.
- 2.20 The Cemeteries are sacred (cf. Code of Canon Law §1205) and are devoted to the burial of the human dead and the provisions and penalties of the law, as provided by statute, will be strictly enforced in all cases of wanton injury, disturbance and disregard of these Rules and Regulations.
- 2.30 Interment Rights within the Cemetery shall be used for no purpose other than for the interment and/or memorialization of human remains.

ARTICLE III

Admission to the Cemeteries

- 3.10 The Management reserves the right to refuse admission to any Cemetery and to refuse the use of any Cemetery equipment or facilities at any time to any person or persons, as the rules, judgment, and tradition may dictate.
- 3.15 The Cemetery Management reserves the right to compel all persons coming into the Cemetery to obey all Rules and Regulations adopted by the Cemetery.

- 4.12 The person making the cemetery arrangements with the Cemetery and the funeral director, if different, shall designate the applicable Interment Space. This information used by the Cemetery to locate the Interment Space must be available in ample time to allow preparation of the Interment Space. The Cemetery shall not be responsible for any acts based upon the representations made by any party designated to provide the location of the interment space.
- 4.15 A Certificate of Interment Rights shall be issued to each Owner upon full payment of the purchase price of Interment Right. Every Interment Right shall be subject to (a) all applicable laws and governmental regulations; (b) the Articles of Incorporation and other documents establishing the Cemetery; and (c) all Rules and Regulations adopted by the

Cemetery, as now in force or as hereafter amended or adopted, whether or not as set forth herein. The Owner shall not receive any property, but rather only receives the right to control the interment for that property.

- 4.17 **Warranty and Liability of Person Signing Interment Authorization.** Pursuant to State Law, an individual who signs an authorization for interment of human remains is considered to warrant the truthfulness of any fact set forth in the authorization, the identity of the person for whose remains interment, entombment or inurnment is sought and the individual's authority signing the authorization is personally and individually liable to pay damages in compensation for harm that is caused by or results from the signing of the authorization.

He is personally liable for all damage occasioned by or resulting from breach of such warranty.
- 4.30 The Management shall not be liable for any order given by telephone, or any error occurring from want of proper instructions as to the size of the casket (or other burial container), or as to the particular grave or crypt locations where interment is made. The Management reserves the right to make an equitable charge whenever labor costs result from such errors.
- 4.40 No organizations or individuals, except those approved by the Ordinary of the Archdiocese, will be permitted to conduct services in any cemetery.
- 4.50 The Management shall in no way be liable for any delay in the interment of a body where a protest to the interment has been made, or where the Rules and Regulations have not been complied with, or where said Rules and Regulations shall forbid such interment, instructions regarding the location of a lot or crypt cannot be obtained, or are indefinite, or when for any reason the interment space cannot be opened where specified. In such cases Management reserves the right to either place the body in a receiving vault until full rights have been determined or return it to the funeral home. All protests must be in writing and filed in the Cemetery Office.
- 4.60 The Cemetery Management may prohibit any Interment within the cemetery if the management has not received a duly executed written authorization from the Owner or Owners of the Interment Rights and the next-of-kin of the deceased or their respective authorized representative(s).
- 4.65 The Cemetery Management shall assume at all times that the Owner acquired his or her Interment Rights for the Interment of the purchaser or members of his or her family. Unless otherwise directed in writing, the management will permit the Interment of someone other than the Owner only upon proof of eligibility or ownership or as set forth below.
- a. Upon the death of a joint tenant, title to Interment Rights held in joint tenancy shall immediately vest in the survivor or survivors, subject to the vested Interment

Rights of the remains of the deceased joint tenant.

- b. When there are two or more Owners, they may designate one or more persons for the purpose of granting authorization for interments, memorializations, etc. with respect to the Interment Rights of the Owners. Any such designation must be in writing and furnished to the Cemetery. In the absence of such designation, the Cemetery shall not be liable for acting on any direction of any co-Owner, provided no other co-Owner has notified the Cemetery of an objection prior the Cemetery's action.
- c. If an Owner dies without having transferred unused Interment Rights either by a specific devise in the Owner's will or by a written direction furnished to the Cemetery, any such unused Interment Rights will be deemed to descend to the heirs at law of the Owner in accordance with the laws of descent and distribution of the State, subject to the Interment Rights of the deceased and his or her surviving spouse. Each co-Owner shall have the right to be interred in any co-owned Interment Space for an at-need death without the consent of the other co-Owners. Absent an at-need death, co-Owners may not otherwise convey or authorize use of an Interment Right without the consent of all other co-Owners.

4.67 Any and all transfers of Interment Rights, whether by conveyance, assignment or Purchase Agreement, are subject to these Rules and Regulations as enacted or amended. All transfers of ownership are subject to a transfer fee that must be paid to the Cemetery when the transfer is recorded in the Cemetery's records. A transfer is not effective until approved and recorded by the Cemetery, and any/all applicable transfer fees are paid. Only the original owner of interment rights has the right to transfer ownership. In the case that the original owner is deceased the Next of Kin all equally share rights to the interment rights.

4.70 The person named in the Certificate of Ownership issued and recorded will be presumed to be the Owner of the Interment Right unless the Cemetery Management approves in writing the transfer or assignment of ownership in accordance with these Rules and Regulations as they now exist or may hereafter be amended. All Interment Rights conveyed to individuals shall, unless stated otherwise, be presumed to be the sole and separate property of the Owner named in the Certificate of Ownership.

- a. All Interment Rights conveyed to individuals shall, unless stated otherwise, be presumed to be the sole and separate property of the Owner named in the Certificate of Ownership.
- b. Upon the receipt of an Order of Distribution by a court having jurisdiction over the estate of a deceased Owner, the Cemetery shall revise its records to reflect ownership of Interment Rights in accordance with such Order, so long as the Order clearly identifies Cemetery property.
- c. If an Owner dies without having transferred unused Interment Rights either by a specific devise in the Owner's will or by a written direction furnished to the Cemetery, any such unused Interment Rights descend to the heirs at law of the Owner in accordance with the laws of descent and distribution of the state in which the Cemetery is located, subject to the Interment Rights of the deceased and his or

her surviving spouse. Each co-Owner shall have the right to be interred in any co- owned Interment Space for an at-need death without the consent of the other co- Owners. Absent an at-need death, co-Owners may not otherwise convey or authorize use of an Interment Right without the consent of all other co-Owners. Absent any other language, the person receiving the Interment Right, and all the heirs, will receive the rights to the interment, including memorialization and disinterment.

- 4.73 The sale or transfer of any Interment Right by any Owner shall not be binding upon the Cemetery unless such sale or transfer shall first be approved in writing by a duly authorized representative of the Cemetery and is in accordance with these Rules and Regulations. This procedure is required in order that the Cemetery may at all times have a complete and accurate record of all Owners. The Cemetery shall make available to Owners, upon request, necessary forms to affect any sale or transfer of Interment Rights.
- a. Any and all transfers of any Interment Right, whether same be by conveyance, assignment or purchase agreement, are subject to all Rules and Regulations of the Cemetery, which now exist, or which may be hereafter enacted or amended.
 - b. The subdivision of Interment Rights or partition of interment spaces is not allowed without the written consent of the Cemetery Management. No conditional or partial transfer of Interment Rights and no sale or conveyance of an undivided interest therein, except to a person or persons who are already co-Owners, will be permitted.
 - c. Repurchase. It is not the policy of Associated Catholic Cemeteries to repurchase Burial Rights. The Cemetery will render assistance to owners of Burial Rights when a new owner has been obtained by transferring ownership accordingly. The Cemetery will provide the transfer deed to consummate the sale for a nominal fee. No transfer of burial rights is complete unless it is properly recorded by the Cemetery.

ARTICLE V

Funeral Service and Interment Procedures

- 5.10 All funerals on entering a cemetery shall be subject to and comply with the directions of Cemetery Management while they are in the cemetery.
- 5.15 Prior to permitting any interment within the Cemetery, the Cemetery shall require the written authorization duly executed by both the Owner of the Interment Rights (subject to the provisions where co-ownership is involved) and the next-of-kin of the deceased or their respective authorized representative(s). Such authorization shall be on forms provided by the Cemetery. The written authorization may be forwarded to the Cemetery by facsimile transmission if it has been signed before a notary public or, the authorization may be accepted if accompanied by some form of positive identification (for example, a driver's license).

- 5.20 A Burial Transit Permit for each funeral, as prescribed by law, from the city, borough, township, or county authority having jurisdiction of the matter must be presented to the Cemetery before interment is completed.
- 5.25 The Cemetery shall not be liable for obtaining the Burial Transit Permit, or responsible for the accuracy of the data contained in said permit or for the identity of the deceased.
- 5.27 The Cemetery relies upon the identification of the deceased provided by the funeral director conducting the funeral services, next-of-kin or the authorized representative and shall have no obligation to independently establish or verify the identity of the remains to be interred.
- 5.30 Every earth interment, other than an interment in a Natural Burial Section, shall be enclosed in a concrete grave box, concrete vault or other unit of suitable material approved by the Cemetery Authority. The installation of these outer containers shall be performed by Cemetery personnel or an approved supplier with suitable equipment and ability to perform. All supplier installations will be under the direction of the Cemetery Management.
- 5.33 The Cemetery reserves the right to permit exceptions to the Rule requiring outer containers where the burial is to take place in specially designated sections for infant burials as well as burials in the Natural Burial Section.
- 5.35 Any type of outer burial container not currently used or currently approved by Associated Catholic Cemeteries must be approved by the Cemetery Authority thirty (30) days before use.
- 5.37 The specifications for outer burial containers, memorials and foundations prescribed by the Cemetery Authority are filed in the office of the Cemetery and will be furnished upon request. All outer burial containers, memorials and foundations placed in the Cemetery must be in accordance with the specifications of the Cemetery then in effect. Written approval by an authorized representative of the Cemetery must be secured before any outer burial container, memorial or foundation may be placed or constructed in the Cemetery. The Cemetery Authority reserves the right to reject and prevent the placement or construction of any outer burial container, memorial, foundation, embellishment or other item or structure which does not conform with these Rules and Regulations and the specifications of the Cemetery then in effect. The Cemetery Authority also reserves the right to specify the date and time for any installation by a contractor. Additionally, the Cemetery Authority reserves the right to limit all specifications based on the Section of the Cemetery, including but not limited to Natural Burial Sections.
- 5.38 No outer burial container, memorial or foundation shall be placed on or removed from the Cemetery without prior written authorization of both the Owner of the particular interment space and the deceased's next-of-kin, or the respective authorized representative(s), except if and to the extent necessary for purposes of routine maintenance and landscaping.
- 5.40 In the event an outer burial container, memorial, foundation or other object is placed or constructed in the Cemetery without the authorization of the Cemetery Management and other appropriate persons as provided herein, the Cemetery reserves and shall have the right, at the Owner's expense, to remove any unauthorized outer burial container, memorial or other object.

- 5.43 The casket may not be opened at any time within a Cemetery without the express permission (and in the presence) of the Management. The Management reserves the right to refuse permission to anyone to open the casket or touch the body without the consent of the legal representative of the deceased or without a Court Order or an Order from the duly constituted civil authority having jurisdiction. In the event necessity requires, the Management may take appropriate steps to correct any obnoxious or improper condition.
- 5.45 The Cemetery Management reserves the right to require that Human Remains entombed in an above-ground crypt must be embalmed or cremated. The Cemetery Management also may, at its discretion, decide to allow entombments of unembalmed Human Remains if a casket is used and the casket is placed in an outside container acceptable to the Cemetery that is designed and constructed to resist the leakage of body fluids and that addresses other similar concerns. The cost of these containers is the responsibility of the person arranging for the entombment. The Cemetery Management reserves the right to prohibit embalming in certain areas of the Cemetery, including Natural Burial Sections.
- 5.47 Funeral visitations will not be permitted at committal services conducted either at the Cemetery chapel or graveside unless specific permission for same has been granted by the Cemetery.
- 5.50 The interment of cremated remains will be permitted only in accordance with the provisions of Canon Law and Archdiocesan Statutes. The scattering of human remains is contrary to the teaching of the Catholic Church (cf. *Order of Christian Funeral*, #417) and is, therefore, prohibited. Scattering cremated remains anywhere on the sacred grounds of the Catholic cemetery is considered unlawful trespass.
- 5.53 The capacity of each interment, entombment and inurnment right may vary from area to area. Please inquire at cemetery office about the exact dimensions of the interment, entombment, or inurnment right you have purchased.
- 5.55 Flowers must be delivered to the Cemetery in sufficient time to permit arrangements before the funeral arrives. Designs shall conform to Catholic thought and practice.
- 5.60 As a condition for performing any disinterment, the Cemetery requires written authorization signed by the Owner and/or the deceased's next-of-kin or their respective authorized representative on a form approved by the Cemetery Management. No disinterment or removal shall be allowed except with the permission of the Management and with the written authorization of lot (plot) holder and nearest of kin and in accordance with all state and local laws. In certain cases, at the discretion of the Management, permission from the Ordinary of the Archdiocese of Seattle may be required.
- 5.65 The Cemetery shall exercise due care in making disinterments but shall assume no liability for damage to the body, casket, outer burial container, urn or memorial in making a disinterment in accordance with written instructions of the Owner or his duly authorized representative(s). When a disinterment is to be made from one grave to another grave and an outer burial container was not used for the original interment, an outer burial container meeting the Cemetery's specifications must be furnished by the Owner or next-of-kin for the new interment. When, at the time of reinterment a new outside burial container is needed,

in the opinion of the Cemetery Management, the person arranging for the removal must pay for the replacement outer burial container. Disinterments of any type are prohibited in Natural Burial Sections.

- 5.77 If no provision has been made for an interment space for a particular deceased person received by the Cemetery, it may temporarily place the remains received by it in a holding facility, crypt, or other suitable place, subject to any state or local sanitary code requirements. - 6.20 In the unlikely event of an error in the interment, disinterment, or removal processes, or in the sale and transfer of interment rights or lots (plots), or the placement or design of a memorial, or any other errors, or in the event of any dispute, the liability of Management shall be limited and shall not include general, special, punitive or consequential damages. Management in such an event will be required only to provide corrected service or a change in location of the lot (plot) or a refund of the money paid. Cemetery Management in such cases shall have the right to reinter, to remove remains for relocation, or to take any other corrective action with or without notice or permission.

ARTICLE VII

Instructions to Lot (Plot) Holders and Rights of Lot (Plot) Holders

- 7.05 A Certificate of Interment Rights shall be issued to each Owner upon full payment of the purchase price of Interment Right. Every Interment Right shall be subject to (a) all applicable laws and governmental regulations; (b) the Articles of Incorporation and other documents establishing the Cemetery; and (c) all Rules and Regulations adopted by the Cemetery, as now in force or as hereafter amended or adopted, whether or not as set forth herein. The Certificate of Interment Rights, Purchase Agreement and these Rules and Regulations, and any amendments hereto, shall constitute the sole agreement between the Cemetery and the Owner, and no statement of any sales agent or other Cemetery employee to the contrary shall bind the Cemetery. The Owner shall not receive any property, but rather only receives the right to control the interment for that property.
- 7.07 The person named in the Certificate of Ownership issued and recorded will be presumed to be the Owner of the Interment Right unless the Cemetery approves in writing the transfer or assignment of ownership in accordance with these Rules and Regulations as they now exist or may hereafter be amended. All Interment Rights conveyed to individuals shall, unless stated otherwise, be presumed to be the sole and separate property of the Owner named in the Certificate of Ownership.

- a. All Interment Rights conveyed to individuals shall, unless stated otherwise, be presumed to be the sole and separate property of the Owner named in the Certificate

of Ownership.

- b. Upon the receipt of an Order of Distribution by a court having jurisdiction over the estate of a deceased Owner, the Cemetery shall revise its records to reflect ownership of Interment Rights in accordance with such Order, so long as the Order clearly identifies Cemetery property.
- c. If an Owner dies without having transferred unused Interment Rights either by a specific devise in the Owner's will or by a written direction furnished to the Cemetery, any such unused Interment Rights descend to the heirs at law of the Owner in accordance with the laws of descent and distribution of the state in which the Cemetery is located, subject to the Interment Rights of the deceased and his or her surviving spouse. Each co-Owner shall have the right to be interred in any co-owned Interment Space for an at-need death without the consent of the other co-Owners. Absent an at-need death, co-Owners may not otherwise convey or authorize use of an Interment Right without the consent of all other co-Owners. Absent any other language, the person receiving the Interment Right, and all the heirs, will receive the rights to the interment, including memorialization and disinterment.

- 7.10 Any and all transfers of Interment Rights, whether by conveyance, assignment or Purchase Agreement, are subject to these Rules and Regulations as enacted or amended. All transfers of ownership are subject to a transfer fee that must be paid to the Cemetery when the transfer is recorded in the Cemetery's records. A transfer is not effective until approved and recorded by the Cemetery, and any/all applicable transfer fees are paid. Only the original owner of interment rights has the right to transfer ownership. In the case that the original owner is deceased the Next of Kin all equally share rights to the interment rights.
- 7.11 The Cemetery may, at its option, accept exchanges of Interment Rights when desired by Owners, subject to prior written approval of an authorized representative of the Cemetery. When such an exchange is made, the original Certificate of Interment Rights must be surrendered to the Cemetery and/or the Owner shall provide such other documentation as the Cemetery may require. The Cemetery Management reserves the right to charge a fee for any such exchange.
- 7.15 Persons arranging for interments must visit the Cemetery where the Management will aid them in effecting the necessary arrangements. In cases of necessity arrangements may be made via phone, fax, email, or other electronic means approved by the cemetery Management.
- 7.17 The Management reserves the right to specify the terms of purchase of all interment rights in lots (plots) and the manner in which said rights shall be held or exercised.
- 7.18 All agreements for the purchase of Cemetery Interment Rights must be on forms approved and signed by an authorized representative of the Cemetery.
- 7.20 Should the lot (plot) holder fail to carry out the terms of the purchase agreement, the Management may declare said agreement cancelled and all rights of the purchaser in and to the lot (plot) forfeited. In the event of such default the Management reserves, and shall have, the right immediately or at any time thereafter, without notice, at its discretion, to remove

- to suitable graves, to be chosen by the Management, each of the remains then interred in said lot (plot). The Management, further, shall have the right to remove any memorial that may have been placed on said lot (plot).
- 7.25 No coping, curbing, fencing, hedging, borders, or enclosures of any kind shall be allowed around the lot (plot) or around any grave. The Management reserves the right to remove same, without notice, if so erected, planted, or placed.
- 7.30 No vegetation shall be planted on any lot (plot), or anywhere in the cemetery without the prior written consent of the Management. The Management reserves the right to remove same, without notice, if so planted or placed without proper written consent or if, in the opinion of the Management, it should become unsightly, dilapidated, unsafe, or impede normal operations.
- 7.33 The capacity of each interment, entombment and inurnment right may vary from area to area. Please inquire at cemetery office about the exact dimensions of the interment, entombment, or inurnment right you have purchased.
- 7.35 All grave interments shall be made with an outside liner or burial vault constructed in accordance with specifications determined by the Management, except for interments in designated infant sections. Variations of the aforementioned must be deemed appropriate and approved by the Management or in Natural Burial Sections.
- 7.40 Digging around perimeter of memorials is prohibited and Management is not responsible for damage to memorials when there is evidence of such digging.
- 7.45 The Management reserves the right to permit or authorize the interment of more than one human remains in one grave or crypt. The Management may exercise this right with reference to single crypts or single graves or any section of graves. The lot holder does not have the right to have the remains of more than one deceased person interred in a single interment space without the approval of the Cemetery Management.
- 7.50 Interment of non-Catholics will be permitted in the cemeteries under the conditions required by the regulations of the Archdiocese of Seattle.
- 7.55 The holder of a lot or lots is granted or conveyed only the right of interment of the human remains of one individual for each right of interment and the right of installation of one memorial on each lot. The owner of the right of interment does not possess a fee interest or any other interest in the land itself. However, there are no more than one burial right permitted per grave in the Natural Burial Section.
- 7.60 The use of lot (plot) is for the lot (plot) holder or lot (plot) holder's assigns for interment of human remains only, and not for resale or profit. The rights of interment in the unoccupied portion of a lot (plot) may be sold only as determined by the Management and as prescribed by law.
- 7.65 In the event of death of a lot (plot) holder any and all privileges of the lot (plot) holder shall pass to the lot (plot) holder's family in the following manner or as prescribed by law (see RCW 68.32, or any other statute amending the same consistent with Cemetery Rules and

Regulations).

RCW 68.32.040 – “If no placement is made in a plot or right of interment, which has been transferred by deed or certificate of ownership to an individual owner, the title descends to the surviving spouse or state registered domestic partner. If there is no surviving spouse or state registered domestic partner, the title descends to the heirs at law of the owner. Following death of the owner, if all remains previously placed are lawfully removed and the owner did not dispose of the plot or right of interment by specific devise or by a written declaration filed and recorded in the office of the cemetery authority, the title descends to the surviving spouse or state registered domestic partner. If there is no surviving spouse or state registered domestic partner, the title descends to the heirs at law of the owner.”

7.67 In the absence of specific written instruction by the owner or interment, entombment or inurnment rights, or whenever the Cemetery cannot with reasonable diligence communicate in writing with the owner’s designated representatives, the Cemetery may inter the remains of any person entitled to interment therein, in any of the unused spaces therein, so as not to delay the funeral; and the Cemetery, its agents and employees shall not be liable in any way.

7.70 Possession of a deed or conveyance is not sufficient evidence of the transfer of a lot from the original holder. Any transfer of any interment right or interest in any lot shall be invalid unless consented to, in writing, by the Cemetery Management and the transfer entered on the Cemetery records. The Cemetery Management may fix a charge for all transfers of ownership in lots, and no transfer shall be effective until all charges are paid. Upon the death of the lot holder, the right of interment shall pass to the heirs as prescribed by law unless the lot holder has disposed of the lot by specific devise in his Will or by a written declaration filed and recorded with the Cemetery Management. The interment right shall not pass by any residue or other general clause of any Will but shall descent to the heirs as though the decedent had died intestate.

- a. Any and all transfers of any Interment Right, whether same be by conveyance, assignment or purchase agreement, are subject to all Rules and Regulations of the Cemetery, which now exist, or which may be hereafter enacted or amended.
- b. The subdivision of Interment Rights or partition of interment spaces is not allowed without the written consent of the Cemetery. No conditional or partial transfer of Interment Rights and no sale or conveyance of an undivided interest therein, except to a person or persons who are already co-Owners, will be permitted.

- d. The Cemetery shall have the right to refuse to consent to a transfer or to an assignment of any Interment Right until the purchase price of the Interment Right has been paid in full. Cemetery also reserves the right to refuse to transfer or allow the use of an interment right if such transfer or interment would violate the basic Rules and Regulations of the Cemetery.

7.75 An affidavit by a person having knowledge of the facts setting forth the fact of death of the plot holder and the person or persons entitled to the use of the plot pursuant to the Rules and

Regulations, is complete authorization to the Cemetery to permit the use of the unoccupied portions of the plot by the persons entitled to the use of it.

- 7.80 When there are several owners of the rights of interment in a plot, they may designate one or more persons to represent their rights and file written notice of such designation with the Cemetery. In the absence of such notice or of written objection to its so doing, the Cemetery is not liable to any owner for interring or permitting an interment in the plot upon the request or direction of any co-holder of the plot.
- 7.85 The Cemetery Management may, at its option, accept exchanges of Interment Rights when desired by Owners, subject to prior written approval of an authorized representative of the Cemetery. When such an exchange is made, the original Certificate of Interment Rights must be surrendered to the Cemetery and/or the Owner shall provide such other documentation as the Cemetery may require. The Cemetery reserves the right to charge a fee for any such exchange.
- 7.90 To preserve the active nature of the Cemetery, any interment space will be deemed abandoned if there is no recorded activity on the lot for a period of one hundred (100) years, or if no un-relinquished right exists in relation to a particular lot. Any lot deemed abandoned may be reclaimed by the Cemetery and disposed of as the Cemetery sees fit, so long as it does not conflict with any current State Laws.

ARTICLE VIII
